

Bridal Glam

NEW PROTOCOL

Myself and my team are so happy to get back to what we love best!
Makeup and hair styling for your special day!
In order to keep you and the team safe, I have implemented a new
protocol for your wedding day glam time.

WEDDING PARTY

We will work with one client and one team member per room when possible and always maintain a set up that is at least 6 feet apart from other team members and their stations. And, in addition to a normal standard of practice that includes washing hands and sanitizing tools and workstations in between each client, we kindly request that all clients wear a mask at all times except when receiving makeup services.

YOUR SAFETY IS MY PRIORITY

Hair and makeup artists are required by law to be vigilant about their sanitation and infection control practices all the time, pandemic or not.

My professional makeup and hair kits are and have always been thoroughly cleaned and disinfected before and after each client. Aside from these standards myself and my team members have completed Barbicide COVID 19 Certification training for the Professional Beauty Industry.
